

## Index

- Activity on land . . . . . 5  
Activity in water . . . . . 7  
Activity over the year . . . . . 7  
Advice and assistance . . . . . 52-54  
Alpine newt . . . . . 5  
Aquatic vegetation management . . . . . 22-24  
Aquatic vegetation planting . . . . . 28,29  
  
Biodiversity Action Plan . . . . . 51,53  
Body length . . . . . 3  
Bottle trapping as survey technique . . . . . 45  
Breeding . . . . . 7-8  
Breeding ponds . . . . . 10-11  
  
Chalk pits . . . . . 15  
Clay/brick pits . . . . . 15  
Competition . . . . . 10  
Courtship . . . . . 7  
Crested newts, European . . . . . 5  
  
Dew ponds . . . . . 16  
Dispersal distances . . . . . 10  
Drift fence and pitfall traps . . . . . 45  
  
Eggs . . . . . 4,44  
Egg laying/development . . . . . 8,9  
Egg search as survey technique . . . . . 44  
Eggs, translocation . . . . . 34  
Enforcement (Police/Council) . . . . . 38,40  
Excavating ponds . . . . . 26-27  
Exotic plant removal . . . . . 24  
  
Filling ponds with water . . . . . 27-28  
Fish removal . . . . . 32,33  
Foraging/feeding in adults . . . . . 5-7,11  
Foraging/feeding in larvae . . . . . 9,11  
  
Growth . . . . . 4  
  
Habitat creation (land) . . . . . 29  
Habitat management . . . . . 20  
Habitat requirements . . . . . 10,11  
Habitat types . . . . . 13-16  
Habitat use . . . . . 6  
Health and safety . . . . . 47  
Herbicides . . . . . 30  
  
Identification of adult newts . . . . . 3,4  
Identification of larvae . . . . . 4  
  
Larvae . . . . . 4,8,9  
Land drains . . . . . 25  
Landfill sites . . . . . 38  
Legal protection . . . . . 35  
Legislation . . . . . 35,36  
Licensing . . . . . 36,37,42  
Lining ponds . . . . . 27  
Literature references . . . . . 49,50  
Log piles . . . . . 31  
  
Management, breeding ponds . . . . . 17  
Management, grasslands . . . . . 30  
Management plans . . . . . 18  
Management, scrub and woodland . . . . . 30  
Marl pits . . . . . 13  
Maturity, sexual . . . . . 9  
Metamorphosis . . . . . 4  
Metapopulations . . . . . 10  
Migration . . . . . 5  
  
Monitoring . . . . . 17  
Movements on land . . . . . 10  
Mulching . . . . . 31  
  
Netting as survey technique . . . . . 44  
  
Over-wintering . . . . . 6-7  
  
Palmate newt . . . . . 3  
Piscicides . . . . . 32  
Planning applications . . . . . 38,40  
Planting new ponds . . . . . 28  
Plants, egg laying . . . . . 8  
Pond construction . . . . . 25,26  
Pond density . . . . . 14  
Pond loss . . . . . 14  
Pond management . . . . . 17-24  
Pond restoration . . . . . 17-24  
Population density . . . . . 29  
Population size . . . . . 9  
Predators . . . . . 9,10  
Protection of sites . . . . . 37  
Puddling clay . . . . . 27  
Public access, control of . . . . . 33  
  
Re-establishing populations . . . . . 33,34  
Refuges . . . . . 31  
Restoration of breeding sites . . . . . 17-24  
Rotenone use . . . . . 32,33  
  
Sand dunes . . . . . 16  
Site boundaries . . . . . 39  
Site designations/notifications . . . . . 39  
Siting new ponds . . . . . 25  
Size at maturity . . . . . 4  
Size at metamorphosis . . . . . 9  
Smooth/common newt . . . . . 3  
Soil disposal . . . . . 26,27  
Stone piles . . . . . 31  
Survey data, use and presentation . . . . . 43-47  
Surveying and monitoring . . . . . 41-47  
  
Terrestrial habitat creation . . . . . 29  
Threats to sites . . . . . 40  
Torch counting as survey technique . . . . . 45  
Translocation methods . . . . . 34  
  
Urban and suburban sites . . . . . 16
